Good Evening everyone. Welcome to the Gateway to Eternity, This is Raj and Shayna.

We have in our show tonight Sri Natha Devi Premananda, also known as Mataji, a spiritual mother dedicated to the upliftment of world peace and spiritual way of life. She embodies the spiritual teachings of oneness, compassion, universal wisdom and truth. She serves today at Eagle Wings of Enlightenment Centre located in South Central Los Angeles, California, USA. She will be leading us in Universal Prayer with blessings. Her site is at:  
<http://www.eaglewingsofenlightenment.org>

**Raj:** Welcome to the show Mataji

**Mataji:** Om Shanti. Much peace and love to you all. O Most Precious God, Beloved Christ, Beloved Prophets and Saints, Beloved ancient ancestors, O we thank you for your blessings in our lives, we thank you for your love and great light, Open our minds and hearts and expand our consciousness into divinity more, give us the peace O God that we need in our daily lives, Give great blessings to all the children at this time, give great blessings to all those who do not have a place to stay, give great blessings to all those who do not have food, give great blessings to those who have lost their faith, OM Peace. Amen.

**Shayna:** Thank you Mataji. I would like to ask you this lesson if you can guide us in Surrendering. How can we surrender?

**Mataji:** OM Shanti. How can one Surrender to God? This is the question you are asking?

**Shayna:** Yes.

**Mataji:** How to surrender to God in daily life? Speak softly with your words to God, speak his holy pray, give homage to God each and every day. Surrender comes from giving God our Love first and foremost in the life. When we give God our love, so his Love magnifies more deep inside of us and when we feel Gods love inside of us we are able to share his love with others, so first of all love God. Love God with all thy heart, with all thy mind and all thy soul. Do this in the daily life first and foremost, that is the Surrender, when we are able to love God in our daily life first and foremost. God will not refuse our love and then that love we give to God, the shower of blessings will then flow to us because we have already acted upon surrender. Love is the embodiment of all human beings on earth. It is Gods love and Grace that brought forth this creation. So when we love God first and foremost then Surrender is there in the Love, surrender is love and Love is surrender. The will we have is the will that God gives us, the life we have is the life that God gives us, the sustenance we have in our daily lives is given to us by God, everything we have is given to us by God, for what is recognized more has limit in our daily life, so whatever we are experiencing in our daily life, whether it is happiness or sadness, we increase our love towards God and all that we do become more a blessed activity in our daily life, so surrender= love and Love= surrender.  
Peace, Love, Joy and Simplicity to you all.  
Om Shanti, Shanti, Shanti.

**Shayna:** Thank you Mataji, that was so beautiful and so simple. I hope our listeners can find a way to surrender to God the way you have guided us. We thank you so much, Om Shanti.

**Mataji:** Om Shanti.

**Raj:** You have been listening to the Gateway to Eternity, to learn more about the show Please visit our website [www.sacredcatalog.com](http://www.sacredcatalog.com)

**Raj:** Tonight we have with us a Special Guest Dr N Rajgopal. He is joining us from Bangalore, India. He is a Vedic Astrologer and has received a great gift of Mindscope technique from his Guru Mahavatar Babaji. Dr N Rajgopal is the only person in the world who checks the deep rooted problems of a person or planetary afflictions through the person's photograph, even before reading the horoscope. His specific remedies have solved several deep rooted problems and changed the lives of many. Welcome to the show Dr Rajgopal-Can you start by introducing Astrology to our listeners?

**Dr Rajgopal:** OK. See, Astrology is a science connected to man, human beings. Its origin is in India but what happened due to various reasons lot of texts have been lost, whatever texts are available people are constructing it and it is very difficult for any astrologer however you search the text, to check the planetary afflictions within 10-15 minutes after giving the chart to him, it is one of the tedious job, he has to make the chart into computer and getting it itself takes 15 minutes whereas clients have no time at all nowadays, that's No 1. No 2 astrologically is if a wrong chart is given the readings as well as the remedial measures will go wrong, So what I do is I touch the photograph of the concerned person which is a passport size or stamp size and in a minute or 10 minutes, I will be revealed the planetary afflictions or major planetary afflictions of a person for obvious reasons, so I note down this and then I collect the horoscope if it is available with the person, take the area concerned and check and give them the solutions. This is the Mindscope.

**Shayna:** Could you explain more about Mindscope?

**Dr Rajgopal:** Mindscope is a name given by me; it is like a horoscope because it is connected to me and God, in between the clients are there, the problematic person is sitting in between, my mind and my Guru who is sitting on the top so everything is connected to them in front of my eyes so when I close my eyes everything is grasped so I am not able to see certain things ,when I

close my eyes I am able to see particular things for a person ,it goes into my mind and certain things are revealed. So that is the reason I have named it as MindScope.

**Shayna:** Do you teach others to do this?

**Dr Rajgopal:** This is called as Siddhi i.e. getting an expertise through the touch of a Guru. That touch of a Guru, Babaji has happened to me thrice so with his Grace I am able to do it, but I haven't become an expert to give this to another person but Babaji has given me a program, Saptha Marga, the 7 routes of Life, anyone taking up this course say for one year will be able to touch this subject or have these kind of qualities in him and he will be able to do Mindscope, if he is attached to me for 1 year atleast.

**Raj:** Yes, it's a big commitment. As they say Spiritual path is not an easy path to follow. Now can we talk about how Karma and Astrology are related?

**Dr Rajgopal:** There are 6000 Million Human Beings on Earth as of today approximately, is it not? Each individual, when you take 2 centimeter/ 3 Centimeter thumb size of every individual, take the print of the thumb, none of the thumb size of another individual will tally which indicates every individual has got his own characteristics, his own life. One person is not at all connected to another person in the quality that he is possessing, so just we cannot condense everything into the 12 Houses of a chart. Every individual has got its own karma depending upon his action, depending on which he takes birth. How we are putting credit into the bank only when credit is available can we draw the money, like that what we have done, sown that only we will be able to reap. So we take rebirth only after years have passed and only when that particular celestial beings are put in such a way that we enjoy the Karma good or bad, so this is how the Karma works for every individual.

**Raj:** Thank you Dr Rajgopal that was a profound answer. There are so many people in the world who are facing problems in their lives

due to karmic reasons and your answer would surely help them. Can you also tell us if Astrological chart is based on the birth time?

**Dr Rajgopal:** Absolutely correct. Unfortunately once you take birth chart of a particular person we are not supposed to write down the time of birth given by the doctor or any person after the birth is noted down we need to make rectification of birth time but none of the people do this. As a result every individual 99 out of 100 will be carrying a wrong horoscope. With a wrong horoscope it will be very difficult for any person to find out what is his karma so there comes the help of Mindscope. What I do is from the moment I check the Horoscope I will be asking is that person carrying any karmic defects, Is the person carrying any curse, is the person carrying any obstructions of positive Gods and Negative Gods like Bhootani, Kartini, Visakani, Raakini .So each person suffering on earth is because of his karma. So instead of finding out the karma it is a major portion of the karma which we find out, we go to what portion of life he is suffering, that portion of life is because of what, we identify that one, take a solution, what is solution is indicated, improvement is found.

**Raj:** So how do you work with your clients Dr Rajgopal?

**Dr Rajgopal:** When a client comes to me I take the photograph of that particular person, before that let me say this- man has got lot of areas of concern If a client is doing business and has a business problem, I ask them what Business they are into-Automobile, Finance, Banking that I will take from him, I will ask him what is his area of concern whether it is health, wealth, social or communication problem which I will take from him and at that particular moment what is his problem, then I will note down this. Then I will analyse the horoscope. After that First I note down the name of the afflicted planets, how many planets are afflicted out of the 9 planets. Second point what I check is the questions asked by him specifically, When it will materialize, whether it will materialize or not. If it materializes when it will materialize, Next point- what are the other afflictions he has got apart from wrong planetary afflictions Whether it is an obstruction from a Gurudevata which is a bad element of the Gods, Negative part of the Gods or is he having any curse, curse's play a major role in Indian society and is he carrying

any black magic I will find out, then what is the growth potential this person is having with regard to problem noted down, if it is health, wealth, business related what is the status as of today I will tell him, I will tell him what is his growth potential if he is not taking any remedy at all as such he's going what will be his growth potential, if he is seeking a remedy for such problems identified what is the growth potential will be explained to him, alongwith his horoscope studied and explained to him that this is the planet , this is planet afflicted for you and this was the Mindscope for you.

There are several cases where a particular planet will be in exhortation which is a powerful planet there but I will be getting that this planet has got afflictions. Usually no astrologers find out what is the reason, they say the planet is very powerful you need not worry about it but when I see through the Mindscope, I will be identifying only that planet is creating a problem or couple of planets will be creating a problem so I go on searching with the Horoscope. I will ask him if the horoscope is correct or not place of birth is correct or not Once this is confirmed, I will also check through MindScope whether the Horoscope is correct or not, after that I will explain to him that search in the horoscope why this particular planet has come although every astrologer has told that this planet is very powerful. Although the planet is very Powerful, it will be placed in a wrong place or it will have a dent in some other place, we will have to go deep into the astrological chart and find out, once I identify, the client also gets convinced and says, Sir nobody ever told me this problem, many of the people who come to me are well versed in astrology, I also understand and once you give clearance for that planet through a remedy, life changes for that particular person.

**Raj:** Thank you Dr Rajgopal. Now can you talk more about Horoscope?

**Dr Rajgopal:** Horoscope is only photograph of a person in a graphical form. It is only a record like a birth certificate, it shows at the time of the birth of that particular person this was the planetary position and today what is the planetary position. It is just like taking the photograph of a child which has got 6 fingers in his hands or there is a deformity in his body and taking the same persons photograph after 25 Years when several things have grown in his body like limbs have grown but still the defects remain what was there in his birth

photograph still continues. See the changes will never take place until and unless you do a surgery for the person, otherwise there will not be a change so just because you have done a surgery and removed it at the age of 25 the birth photograph will always show the deformity as the photo was taken at the time of birth Horoscope will always show the defect we will have to check up through Mindscope the present status of the person there is a manglik dosha there is a very clear problem of the person with regard to Guru debilitation or Jupiter Debilitation and I tell them, as it is in the birth chart but what is the conditions as of date, he would already started a remedy for that but there would be some other problem which is operating now ,at birth there will be some problem but at present there maybe a totally different problem . Let me give you a real life case-One case came to me of a lady through her husband, who said her behaviour is very very peculiar, every other day she is asking me for a divorce and I have got 3 children. She closes all the doors of the house and says lizards, mosquitoes, air and dirt are coming and she keeps asking for divorce. She says I don't want to stay here and with children. He paid the fees and came to me. When I checked up, I wasn't revealed anything, 2 days I spent for this Special Case, it was quite complicated case. I could not get anything. Then only 1 thing I was revealed to me- a Deity in a dark space rotating in reverse Immediately I found out something and I told that person to go to a particular temple which is called "Vakrakaliamman" which in Indian language means the Reverse God, the Goddess which has got everything reverse in her so once he goes to that particular place and comes back there will be light for me to find out about this case. If a needle is lost in the dark, we cannot find it out sometimes it happens to me also, somebody comes to me they say the needle is lost I cannot find out there is a darkness. To get the light I have guided them to go to that particular temple and come. They travel 2000 Kms all the way to that particular temple, after 15 days they came and I reanalyzed the case and I got the planetary afflictions for him, who has made Black Magic for that person, is there any other shakini problem, all those things when I checked I was revealed that this lady has no problems at all, She had only 1 problem related to Mars Planet. Because of two planets afflictions, Mars and Saturn, she was suffering all this fears. Once those 2 things were operating at that particular junction the 2 planets were operating at that particular junction, the planets also want a solution to give, planets always do

good as well as bad, they wanted to give good, that is the reason at that time they came to me and now they have a Happy life, this is how it happens.

**Shayna:** Wow, Thank you, I want to give you my picture.

**Raj:** There is a belief that says that when a soul enters into a new life, it comes with a contract saying they have to suffer in this lifetime and suffering can be in the form of poverty, fear or in some other physical abnormal form. How does Astrology help in such a scenario?

**Dr Rajgopal:** See in Astrology this particular thing is called Karmavasana. Karma is Action, Vasana is smell. For example see the Dogs they smell something and go, they need not see anything physically through the smell only they identify, this is what we see physically in front of our eyes. Like that the Atma, once it quits the body it goes on rotating somewhere when it goes on rotating according to the actions it has done in the previous body it enters a new body. In the new body, if it has been told that that person has to suffer poverty, it has to suffer poverty and it is mentioned that a stone has to fall on his head definitely a stone will fall on his head. If it is written that he has to fall from somewhere definitely he will fall from somewhere. This can never be changed or reversed for that particular person. But through remedial measures you can make a small stone fall on your head, a small one is also called a stone, a big one is also called as a stone; a big fall is also called as a fall, a small fall is also called as a fall, the impact will be less, the same situation will happen to you and your physical, mental and psychological level will be afflicted through remedies to the extent that you withstand that impact of that. For example if I slap you, you will slap me again but what will happen if you have been trained I will slap you and still you will not slap me so what happens is your action remains same but response remains different after training. So in remedial measures it's also like that. What is to happen will happen it cannot be changed but the impact can be lessened or made to feel less by the concerned person.

**Raj:** OK. So even if he has a contract he doesn't have to experience, say Fear, throughout his lifetime then?

**Dr Rajgopal:** On one side Fear will be there and on other side Courage will also be developed to overcome the fear. The fear of life only makes a man to get alive that is a sociological theory. The fear of life only makes me to cross the road when traffic is there so that fear is there but there is courage for me to walk and cross the road also that's how we learn.

**Raj:** That was I think a very profound statement for everybody to understand because most of the people tend to believe that if they have done anything bad in their previous life and they find a contract saying I will have to suffer then I have to suffer.

**Dr Rajgopal:** Many people who come here have said Babaji has helped me to find a good job, child, and wife. This is a narrowistic view that people are having. Babaji is not there to give anything. A recent case has happened there is a girl Sonali from Hyderabad. Her daughter has been admitted in the hospital with 15 injections per day. She was crying like anything, took an overnight flight and came to my office and said please do something for my daughter. I said within 24 Hours I can't do anything, no remedy can be done but I will pray for your daughter. She went back. 2 days later she called me and said- No you have not helped me, Babaji has not helped me, the child is suffering every day, 8-10 injections are being given. I did not respond to her. Next day she sent me a sms- Guruji, Thank you my prayers have been answered and my child has totally recovered now. Now how did this happen? The moment I got her sms before recovery I was disturbed because I am also a Human Being, I just submitted to Babaji, asking him why it has happened, why he has not helped? Babaji replied- "I need not help anybody, I am not there to help anybody, I don't have any Karma to pay- No Debts, No Credit in my account." Then I understood what I asked Babaji was totally wrong. Babaji is there, just a glimpse of him will take care of us. He need not help anybody. He says I will see that you got help from yourself. Now the faith in him only will heal, you cannot ask Babaji to take an injection and inject in your body it will never happen. That is why people should not have a narrowistic view of Babaji .They should have a broad view of him and ask for overall good of all. That is the way you ask. Every year on Jan 1, my Birthday, what I ask GOD is give Peace of mind to everybody, this is my simple prayer and biggest demand from GOD, when our surrounding is peaceful,

automatically we will also be peaceful, that is what people should also understand. When they come to us, they should not ask for solution for themselves, they should ask for solution for the entire world. Then automatically your solution will also be got.

When water is available plenty outside your house, you can easily get water too and when it is available only in your house, it may not be available outside, this concept people should understand.

**Raj:** I was just about to ask this question whether Mindscope can help in bringing World Peace and bringing everyone together towards one goal

**Dr Rajgopal:** Definitely. See Babaji has given me Sapta Marga To be initiated to people and I am in the process of constructing BabajiSannidhan which will take about 2 more months to start. By the end of 2008 Year, there will be a small training programme In a small hall and I will be initiating people on SapthaMarga on what Babaji has told. This will spread on understanding the human values and seeking remedies. Understanding the human values alone is not sufficient for the people who are not matured to that level so to uplift them through Financial, wealth as well as their self potential, then only they can be made to understand. So my view is to improve their lifestyle little by little and then take them for the SaptaMarga. That is the planning what we will be doing in Babajisannidhan Building.

**Raj:** Are you planning to travel abroad also so that other people can also learn what you have to offer?

**Dr Rajgopal:** Maximum 4 cases I will be able to attend in a day. In a seminar I will be able to answer any number of questions people ask me. Now if they ask me anything specific to them, then I need to close my door, take their photograph and find out. But if there is a seminar and they ask any number of questions in any number of hours, I will be able to answer them in specific answers. So definitely if I get an Invitation from any Country for a Seminar, I will be Happy to go.

**Raj:** OK and what's the best way to approach you right now?

**Dr Rajgopal:** You can approach me through Email/ Post/ SMS/ Phone.

**Raj:** Your phone number and email address are at your website, Right? You also have some remedial measures for some common problems of mankind?

**Dr Rajgopal:** Yeah, Common problems I am planning to give solutions in BabajiSannidhan without any charges so it will be available after 6 months from now. People ask me why not you give me mantra or other things, definitely it can be given. What happens is if I give a mantra that needs to be recited lakhs and lakhs of times That is the reason it doesn't work for people until and unless you go on working on it. See if I do a remedy it works very fast, if you do the remedy it may not work so quickly. It is like getting a shirt tailored from a tailor, he does it fast. If I wanted to tailor my own shirt it will take 2 and half days and it won't have perfection. Even in Karmavasana it's the same thing, whatever mantras we recite it day by day it purifies us and lessens our Karma. Whatever mantras you recite it will not go anywhere it will keep on rotating in your body your aura it will be protecting you it will not be visible to us. Most of the time a truck will come behind you and it may look like you have been smashed but the truck will take a 90 degree turn, will change its direction and go, it will not hit you and you wont feel it too so this can save you a lot so the best mantra a person can recite every day is OM and if they want a specific mantra for creating wealth it is OM HREEM NAMAHA or they can take Babajis name, OM SADHGURU BABAJI NAMAHA. Every action if they keep taking Babajis name that itself creates a lot of Positive vibrations and brings solutions to their problems.

Every Tuesday, Indian time, 8-9 in the night, there will be Babaji Siddha Mandala meditation, when I will be in communion with Babaji. I will be closing my eyes and I will be in communion with him. Any person having a bath, closing eyes at that time and concentrating on Babaji will be able to speak to Babaji if he makes proper attempts and if his efforts are very sincere every Tuesday it's being done and people can experience this for themselves.

**Raj:** Wow that's profound Thank you for sharing this information. This show cannot really be concluded without talking a little bit more about Babaji. Can you talk about your first experience with Babaji and how did you feel about it?

**Dr Rajgopal:** My first experience, I myself didn't know I had met Babaji. What actually happened is I was given a wrong medicine and I was vomiting blood and I was admitted in the hospital. I was shifted from surgery to medicine, medicine to surgery. My hemoglobin dropped to 4.2, 30 years back and the doctors were not able to take up the surgery because blood was not available, my blood group was very rare too which is O negative, the whole day blood availability was 2 pints whereas I needed 4 bottles of blood this was the condition. So they kept me on medicine for 2 and half months giving me 18 bottles of blood and 384 bottles of Dextrose. Subsequently nearby my family doctor was there who was practicing Siddha Vaidya, siddha treatment is very very ancient treatment. He came and told my parents to shift me immediately from the hospital and he would treat me. But my parents didn't have the courage to do this. Over a part of time suddenly the doctors could not find out from which part of my intestine the blood was coming out, it was a peculiar disease, they couldn't diagnose or identify. Suddenly through some medicine, there was a ceiling in my intestine and the blood oozing out stopped so the doctors discharged me and advised me to come back after 3 months after recovery so that they can conduct a surgery. But after 3 months I was not allowed by my family doctor to go there. He said he would treat me. Once I was sitting in this family Doctors clinic to collect the medicine, there was another patient there who was discussing with the doctor asking for some particular treatment where the doctor failed and said I cannot do it. While the discussion was going on , One Sadhu walked in and sat next to the doctor, the sadhu said give me 5 Indian Rupees the doctor is a very elderly person and gave him 5 Rupees and the Sadhu told the doctor you wait here, I will come back. Now my Family doctor was a very elderly person, I asked him uncle what is going to happen, why this sadhu has come here? The doctor said when the sadhu has asked me to wait here, I will wait, and I cannot close my office now. The moment he told me this I was drawn to the sadhu like a magnet and I ran behind the sadhu to an isolated place. He touched me, I put my head on his foot and he

touched me and said Go. From that day I was able to visualize many things like if I saw a Dog I was able to say I feel this Dog is going to have an accident and it happened. So everything negative was happening after this sadhu touched me. I didn't know what this was.

Then I went to a Guru who was building a temple and told him about my experience he told me you always think positive don't think negative. From that day onwards I used to think Positive like that Dog will be saved even if he is in an accident and that happened, so like this days passed by and suddenly one day I found myself walking in the same spot in cantonment area in Bangalore city, I saw the same sadhu and he told me to come to Mumbai city on a particular day which is on my website I traveled 2000 Kms from Bangalore all the way to Mumbai the sadhu was there he was waiting there. He told me to do pranam to him and I put my head on his foot. He touched/ blessed me and gave me a piece of stone which was Agate stone. He said keep this with you. That was over and I came back to Bangalore, life was going on and lot of people were coming to me for remedies. One day suddenly I came in contact with Babaji through a book. One of my clients who were blessed with a child after a long wait through my remedy presented a Babaji book to me, his name is Dinesh from Mysore and when the book was presented I was impressed by Babajis picture and lot of things started coming to me and I started to become a disciple of Babaji. Babaji told me the time has come for you to awaken. I asked him when can I see you Babaji. He told me I came to you as a sadhu 2 times. Then I remembered the sadhu who came in front of me 2-3 times was none other than Babaji. When I asked Babaji why he kept me in dark for about 20-25 Years? He said Seed will remain seed, when the time comes to ripen, it will become a fruit or tree. You needed to complete your corporate life so that is why you were not revealed anything. This happened about 30 Years back but I myself came to know about this only 10 Years back. This is how I came to know of Babaji.

**Raj:** Wow that was wonderful Thank you for sharing this Dr Rajgopal. We thank you for being with us in the show tonight. We will see you next time 2 weeks from now on "The Gateway to Eternity"
